

## News Letter 3 – SARUC 2017

May 2017

### **Dear Friends of SARUC**

*The Steel and associated industries are still under severe pressure since the economical downturn and is affecting everyone globally. The SARUC organizing committee are planning to have the next conference on 26 and 27 October 2017. The committee is pleased to say that we received good technical presentations for inclusion at SARUC 2017. There is still time should someone still be interested to send us a paper for consideration. We could still accept papers until end of June 2017 which will be the cut-off date as the proceedings publication content should be finalized by then in order to get them printed in time.*

**The actual dates are then 26 and 27 October 2017 and the venue for SARUC 2017 will be the QUEST CONFERENCE ESTATE in Vanderbijlpark.**

*The South African Roll Users Conference (SARUC) is a forum for the exchange of knowledge in the metal and allied industries with the aim of improving quality, productivity, cost of production and technical expertise. It will allow delegates the opportunity to meet fellow users as well as local and international suppliers of equipment, consumables and services.*

As always the SARUC committee is committed in presenting the 2017 conference adding value to all concerned. A competitive edge leads companies to success and it is therefore imperative to continuously improve products and productivity, to ensure low cost of production and customer satisfaction. SARUC is an important event on this journey.

The SARUC website is [www.SARUC.com](http://www.SARUC.com) where you will find all you need to know about SARUC - including activities, a comprehensive e-mail address list of roll users and manufacturers, how to take part in this prestigious event and much more. You will also receive regular updates of the progress made by the organizing committee. ***Should you no longer wish to receive this information, kindly reply with a short request to be removed from the distribution list to [Henriehet.brooks@arcelormittal.com](mailto:Henriehet.brooks@arcelormittal.com)***

Feel free to register with SARUC through our web site and be included on the distribution list.... *at no cost whatsoever*. Kindly remember to inform us of any amendments to your contact information, including your designation, so we can ensure our records are up to date. Furthermore, please feel free to send us contact details of anyone you think may be interested in receiving information pertaining to SARUC.

## **Technical papers**

We could still consider technical papers which need to be in the final format by the end of June 2017. The committee will, as always, try our best to ensure the presentations are interesting and adds value for the delegates and the industry as a whole. We will use the feedback received from delegates during *SARUC 2014* to improve our efforts in exceeding the expectations in SARUC 2017.

**Please send detail of paper that you would like to present to Henriehet Brooks, [Henriehet.brooks@arcelormittal.com](mailto:Henriehet.brooks@arcelormittal.com) , which will be evaluated for inclusion at SARUC 2017. before end June 2017.**

***Please see attached "Call for papers letter" for more detail on synopsis and information required.***

If the author will not be presenting the paper, we will require details of the presenter before a final decision is made.

Advertisements in the **SARUC publication** and hiring of exhibition stands at the conference not only provides much needed revenue for financing the event, but also gives you an opportunity to display and promote products and services to a selected audience. Space is limited, so please book early to avoid disappointment. See attached order form – which is also available on the SARUC web site.

Every effort will be made to keep delegate fees as low as possible to maximize participation at SARUC 2017 which promises to be another memorable occasion.

***Details of bookings, fees, advertisements and order forms can be obtained from either Henriehet Brooks, or from any of the committee members should you need any assistance.***

## **SARUC serves the steel and associated industries.**

We are looking forward to meeting old acquaintances and forging new friendships at **SARUC 2017**.

A handwritten signature in black ink, appearing to read 'Derick Terblanche', written in a cursive style.

## GUIDELINES FOR SUBMISSION/PRESENTATION OF PAPERS

In order to maintain the high standard set by SARUC, these guidelines and specifications for the presentation of papers and their publication in the "Conference Proceedings" must be strictly adhered to:

### 1. PRESENTATION OF PAPERS

- 1.1. Presentations may not be more than 20 minutes' or less than 10 minutes' duration. Authors are to indicate the estimated time required for their presentations when submitting their Word presentation (double column per page) and final PowerPoint presentations. The content, after inclusion of captions/illustrations should not be longer than 8 pages. Question time will be additional to presentation time and should be approximately 5 minutes. The written content can be e-mailed to [Henrihet.brooks@arcelormittal.com](mailto:Henrihet.brooks@arcelormittal.com), or supplied on CD / DVD and posted to Henrihet Brooks.

#### **Font type and size:**

Title of paper: Arial 13, bold print  
Author/presenter detail: Arial 11  
Headings: Arial 11, capital letters, bold  
Script: Arial 11  
Captions: Arial 11 *Italic*  
Formulas: Helvetica 11

*Illustrations, photographs and Visuals* accompanying the presentation are to be of a high standard, (i.e. capable of projection on large screens (4000 mm x 5000 mm), and professionally produced. No substandard visual material will be accepted. Final visuals can be provided on CD / DVD and must be in the possession of the committee at least two months prior to the conference, (*also see 3.3*). Alternatively visuals may be e-mailed to [Henrihet.brooks@arcelormittal.com](mailto:Henrihet.brooks@arcelormittal.com) (*At least 300 dpi for print and CMYK*). Photographs must be numbered and indicate where and with which information it must be placed for printing of the publication.

A good quality head and shoulder photo of the presenter must also accompany the submission of the final paper of at least 300 dpi and in CMYK format.

- 1.2. Presenters must be fluent in English and knowledgeable on the subject presented, in order to answer technical questions posed by the delegates. The presenter need not necessarily be the author of the paper to be presented.
- 1.3. The first page of each document must reflect:
- Title of the paper
  - Author's full names
  - Author's title/designation
  - Author's tertiary qualifications and professional affiliations
  - The company/organisation represented by the author.
- 1.4. Visuals for screening must be digitally produced in Power Point (*Microsoft Office*). A digital projector and computer will be provided. Presenters may bring their own laptop computers as back up for the presentation.

- 1.5. Sales propaganda and or company excessive backgrounds/history are not acceptable. Exception is made for the inclusion of a non-distracting logo or company name on the visual. Authors and their companies will be

acknowledged in the proceedings publication and will be properly introduced at the conference before presenting their papers.

- 1.6. Comparisons with competitor products could be made, providing comparisons are not offensive without direct identification of competitors and no derogatory remarks are made.
- 1.7. Video presentations are not acceptable, although a short video clip would be acceptable

## 2. PUBLICATION OF PAPERS

The conference proceedings publications / DVD's are of a high standard and all illustrations and photographs for this publication are to be supplied according to the specifications set out above (300 dpi and CMYK).

Written content of all presentations is for SARUC use only and will not be published by SARUC in any other media.

## 3. GENERAL

- 3.1. The Committee reserves the right to refuse any submission, which, in their opinion is not up to standard and/or in accordance with the above guidelines.
- 3.3 WORD submissions for publication must be complete and in the Committee's possession (six months prior to the conference). Non-adherence to this requirement may result in non-acceptance, because the Proceedings publication must be finalized for printing / electronic copying.
- 3.4 In **summary** the following is required:
  - A synopsis not exceeding 350 words, which may be accompanied with graphics, is required to adjudicate the suitability of the paper to be supplied on or before required date.
  - Word presentation with visuals (double column per page) supplied six (6) months prior to the conference.

**PowerPoint presentation for presenting the paper at the conference supplied two (2) months prior to the SARUC 2017 –**
